## **APPENDIX C**

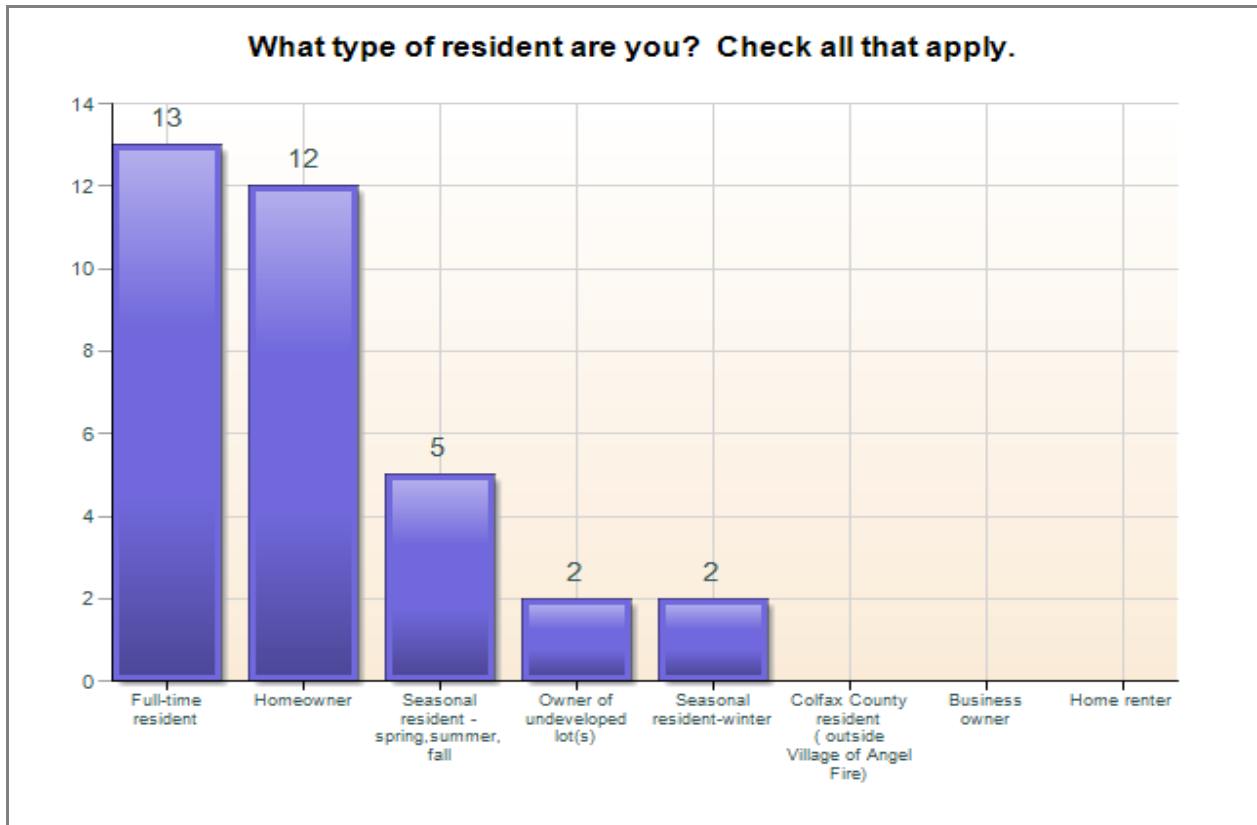

# **PUBLIC SURVEY RESULTS**

---

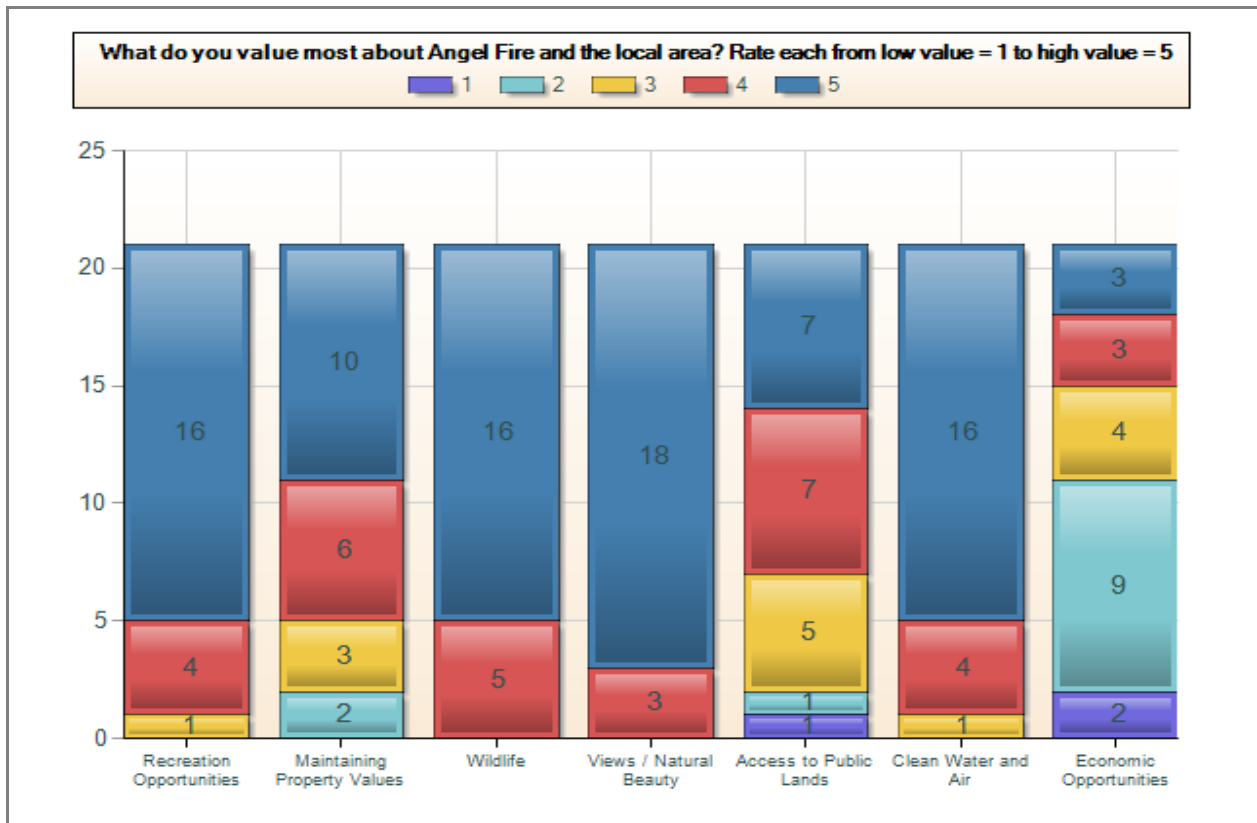

As part of the public participation in the Community Wildfire Protection Plan process, an on-line survey consisting of 23 questions was developed and publicized through newspaper articles and e-mails to stakeholders, and presented at the public meetings. Despite the publicity, only 21 people filled out surveys. Contact information for the respondents, several of whom expressed interest in participating in future wildland fire meetings, and the surveys themselves have been given to Village officials.

This appendix consists of a graphical summary of the results of the survey, displayed using software supplied by the survey website that was used: [www.Zoomerang.com](http://www.Zoomerang.com).
